

## Attitude to Return and Volatility for \_\_\_\_\_

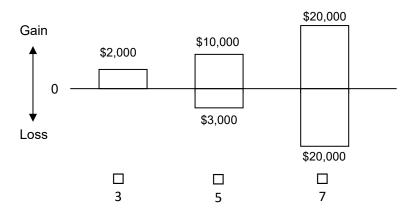

The following questions about investing will help you determine what you want to achieve from your investment. This will help you select the best investment fund for your plan. Remember there is no right or wrong answers as everyone is different. Pick the answer that most fits your situation.

	1.	When will I need to spend all this money?	□ 1	1-2 years	□ 4	3-5 year	s 🗆 7	5 years +
						Agree	Neutral	Disagree
2.	I would be concerned if the returns on my investment fluctuated greatly on a monthly basis				□ 1	□ 3	□ 5	
3.		ould be worried if my investments declin		er 6 months				
	eve	en though I know investing is for the long	term			1	3	5
4.	Ma	aking my own investment decisions make	s me n	ervous				
						1	2	3

5. Out of the following statements pick the one that best describes your attitude towards investing

<ul> <li>I prefer investments with a consistent return even though it might be lower</li> </ul>	
	1
<ul> <li>I am willing to accept moderate fluctuations for average long-term returns</li> </ul>	
	4
<ul> <li>I am comfortable with fluctuations to get above market returns</li> </ul>	
	7

6. The chart below shows the highest one-year loss and the highest one-year gain on three different hypothetical investments of \$100,000. Where would you invest your money?

Typically, the pain of a loss is felt more strongly than the elation of a gain. Would you say that when faced with a major financial decision you are more focused on your investment not going down or going up in value?	
<ul> <li>Capital preservation is important and some negative returns would worry me</li> </ul>	
<ul> <li>Capital appreciation is important and I wouldn't worry if I had some volatility</li> </ul>	□ 3
The expression that best describes your attitude to investing is;	
• 'Look before you leap'	
• 'Just do it'	1 □ 3
How important is it that you have immediate access to your long-term investment?	
<ul> <li>Extremely important – I need to be able to access my investments</li> </ul>	
Somewhat important – I like to have access to my investments if I need funds	1 □ 2
<ul> <li>Not important – I won't be accessing my investments for the longer term</li> </ul>	2 □ 3
	<ul> <li>say that when faced with a major financial decision you are more focused on your investment not going down or going up in value?</li> <li>Capital preservation is important and some negative returns would worry me</li> <li>Capital appreciation is important and I wouldn't worry if I had some volatility</li> <li>The expression that best describes your attitude to investing is;</li> <li>'Look before you leap'</li> <li>'Just do it'</li> <li>How important is it that you have <u>immediate</u> access to your <u>long-term</u> investment?</li> <li>Extremely important – I need to be able to access my investments</li> <li>Somewhat important – I like to have access to my investments if I need funds</li> </ul>

	YOUR SCORE =	
SCORES	Recommended Profile	%
15-24	Conservative Investor	
	Investors seeking modest returns with a focus on portfolio preservation. Investments will be predominately fixed interest bonds, with a limited exposure to growth assets	
25-34	5-34 Balanced Investor	
	Investors wanting to balance the risk of investment in property and shares with less volatile fixed interest bonds. Investments will be in a range of cash, fixed interest, growth assets	
35-45	Growth Investor	
	Investors willing to adopt a higher level of risk in search of potentially higher returns. Investments will predominantly be in growth assets, with a small exposure to fixed interest bonds.	

## Reason for Risk Profile;

□ Preservation of capital is paramount while getting stable gains.

Comments \_\_\_\_\_

- □ Happy to have volatility over a medium term of 1-2 years as realise investing is for the long term.
- □ Understand that values can fall and rise quickly with changing market conditions when looking for growth.
